

Check our fun [movie](#)

Write & Correct

The notes are correctable with the rear end of the special marker. The marker is [available](#) in the colours red, blue, green and black. If your marker is empty you can refill your marker with a handy [refill station](#).

Digitize

PHI Notes cooperates with CamScanner. Via our [website](#) you can download the app for free. With this app you are able to scan your notes, add data and annotations, share and upload to a digital platform of your choosing. Please find the instructions for [iPhone](#) or [Android](#) users.

Erase

Our organic cotton [stuff](#) is manufactured without toxic or critical substances and was designed by [people](#) with a distance to the labor market. There's a little hole in order to tie the item to the ribbon. The stuff is perfectly washable in a washing machine.

Reuse & aware

When designing and producing the notebook we use the principles of circular economy and recycled materials. We would like to receive the book, after use, so that we can reuse the materials and to close the loop. [Retour adress](#)

Share the fun

With PHI Notes we are constantly searching for ways to make an as large as possible [impact](#). What's more fun than buying a PHI Notes and making a donation. For each PHI Notes you buy you give a PHI Notes to a development project throughout the world. Together we will achieve more! If you have any questions or good ideas, please leave a post in our [lab](#)!
